

IFAT BRASIL 

BENCHMARKING

ÁGUAS, EFLUENTES E RESÍDUOS

22 a 26 de ABRIL

LAVORO

Presentation

In 2024, at the invitation of the IFAT Brazil organizing committee, we are honored to present the first International Solid Waste Benchmarking Brazil, promoted by LAVORO, which has established itself in the international environmental events market as a distinguished and outstanding reference in the consulting sector specializing in the environmental sanitation business.

Technical visits

Over four days the event will promote an immersion in the best national references in the environmental sanitation sector in Brazil on the Rio/São Paulo axis, especially in the area of urban solid waste management, water and wastewater treatment. With the aim of providing high quality technical visits, the best networking and knowledge exchange for professionals, companies and public agencies.

International benchmarking • Reflection on best practices • Quality networking
